I am signing the #endyouthsuicide petition to raise awareness of youth suicide, which is the biggest killer of young Australians aged 15 to 24.

Youth Insearch has helped over 32,000 vulnerable youth turn their lives around, including thousands at risk of suicide.

Suicide remains the biggest killer of young Australians aged between 15 and 24.

Suicide disproportionately affects Indigenous, Aboriginal and Torres Strait Islander peoples, the LGBTIQ+ community, and young people living in rural and remote areas.

All communities have a vital role to help end youth suicide by encouraging young people to speak up and seek help. We need to come together now more than ever to help our young people.

It is time to end youth suicide.

Let's spread hope, one heart at a time
